THIRD: The application of the ideal of service in each Rotarian's personal, business and community life.

FOURTH: The advancement of international understanding, goodwill and peace through a world fellowship of business and professional persons united in the ideal of service.

Facilitated by the Rotary Club of Box Hill Central

**Let's change lives together...
From the bottom up!**

Operation Toilets Australia (OTA) builds toilets and delivers hygiene education programs in schools in developing countries with the special aim of improving the educational opportunities for adolescent girls.

OTA partners with Rotary clubs and in-country not-for-profit organisations to build toilets of solid brick construction with sustainable sanitation connections.

A key element of any OTA project is a hygiene education program, WASH, developed by UNICEF. Students are taught to wash their hands after visiting the toilet or before eating. Local communities are also encouraged to become involved.

The final part of any OTA project is for a school to commit to an ongoing maintenance program to ensure that their toilets are kept in good working order.

By donating to Operation Toilets Australia you have the opportunity to change the lives of disadvantaged children and to give adolescent girls the opportunity to continue with their education.

To donate: go to rawcs.org.au, click *Search for a Project* and enter *Operation Toilets Australia* then click *Donate Now*. Donations over \$2.00 are tax-deductible.

This week at Chelsea Rotary – Committee Meetings.

Hi folks,

I hope your horse came in at The Cup, or at least hope you all enjoyed a long weekend, something for which we Australians have something of a reputation. We'll have some committee meetings this week so that we can discuss and try to progress our projects, followed by a Club Forum *next week*, which is a great opportunity to raise issues, highlight successes (and review those other projects that didn't quite go to plan) and discuss what we want to do more of, what we need to do less of, and what we possibly need to start or stop doing.

The UV's getting stronger now, so enjoy the outdoors by all means but it's almost time to start thinking slip, slop, slap.

Cheers
Keith
