Hi Members and friends,

We had an enlightening vocational visit to the headquarters of the PGA at Sandhurst Golf Club last week. Many thanks to David Tapping, CEO of the PGA for showing us around the complex, and thankyou to David Healy and Peter Batten for organising the night.

David Tapping has a wealth of experience from his over 20 years of industry involvement - a variety of experience and qualifications across all areas of the golf industry. He has worked at both public and private clubs and specialised training facilities, working across management, support, and coaching roles in addition to the ten years he spent playing Professional tournament golf in Europe, Australia and America.

David explained the various facilities available to golf pros to improve their understanding, playing and managing of all aspects of the game of golf, and pointed out the substantial costs of maintaining a golf course which can run from more than \$100K to well over \$1M per year.

This week we are not meeting due to the District 9810 Annual Conference in Ballarat. Hope to see you there!

All the best,

Simon.

We wish our good friend Mike Manassa a full, and hopefully a quick recovery after being catapulted over the front of his racing bike recently. His handlebars collapsed without warning, resulting in a very sore Mick and a severely damaged collarbone, not to mention the loss of bits and pieces that he had been very attached to! So for all your riders out there, if you ride faster than a geriatric on a fully charged scooter, you might want to check out your bike, especially the handlebars...

AUSTRALIAN ROTARY HEALTH

Australian Rotary Health (ARH) is a major research fund and grants organization. It is the largest Australia-wide project undertaken by Rotary.

The Australian Rotary Health Board allocates research grants on the advice of a Research Committee that comprises eminent medical and paramedical professionals.

Since 1985 over A\$27m has been allocated to approximately 500 grants for research into such areas as:

Sudden Infant Death Syndrome, Care of the Aged, Adolescent Health, Family Health, Mental Illness, Cancer research, Parkinson's Disease, Neurological research and many other research areas. Medical research is the primary beneficiary of funds from Australian Rotary Health. Since the year 2000 Mental Illness has been the main focus of research funding.

'Supporting healthier minds, bodies and communities through research, awareness and education'

District 9821 has contributed A\$2.7m since allocated grants commenced in 1985.
